

Do you waste valuable time manually producing Staff Rotas?

Do you want to manage your human resources more effectively?

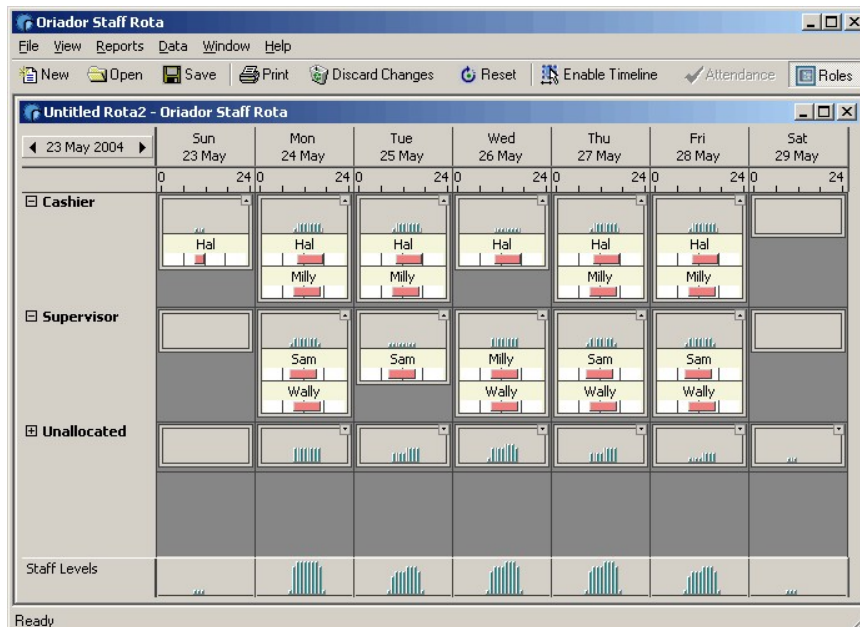

You need Oriador.....

Managing and controlling human resources is a vital part of business management and needs to be both effective and responsive. Manually preparing and distributing the staff rota takes up valuable management and staff time, which could be spent on key business processes.

The Oriador Staff Rota System from V4 Solutions Ltd, allows you to quickly and easily produce Staff Rotas using an intuitive graphical user interface. Configure working patterns, build and distribute the staff rota across the organisation and retain the information for future reference. The system allows you to manage and deploy your staff more efficiently and quickly, and will free management and staff to concentrate on their business critical tasks.

Oriador Rota is designed to be flexible and capable of supporting a range of working patterns from complex shifts to a basic 9-5 environment. This flexibility enables Oriador Rota to meet the requirements of many different types of organization.

V4 Solutions can also provide full consultancy, development and training services to ensure that the system is configured to your exact specification to meet your operational requirements.

Features

- At-a-glance indication of staffing level.
- Attendance information management.
- Timesheets.
- Management reports.
- Record staff personal information.
- Define shift patterns for individual staff.
- Set up user levels, statuses, employment categories, pay scales and absence reasons.
